MOTAVO VENTURE GROUP PROVIDES FUNDING AND SERVICES TO KIDS MOBILITY NETWORK, INC.

HIGHLANDS RANCH, CO, November 9, 2005 – Motavo Venture Group, LLC, a professional services and investment firm announced today that it has provided start-up funding and professional services for Kids Mobility Network, Inc., a non-profit organization dedicated to providing durable medical equipment to disabled children.

“I am so proud for Motavo Venture Group be a part of starting Kids Mobility Network,” said Peter Kopp, founder of Motavo Venture Group. “We have been working on this quietly for a while and I am so pleased to see it coming together. It’s exciting to see so many well-known local and national organizations are behind this project.”

Based in the Denver, Colorado metro area, Kids Mobility Network, Inc. is changing the lives of disabled children by providing durable medical equipment such as walkers and wheelchairs to children whose families are underinsured or uninsured. Children often outgrow this equipment long before its useful life is exhausted, so Kids Mobility Network is working to see that this equipment is put to use when the original child no longer has use for it.

The organization accepts both equipment and financial donations from the community. After reconditioning donated equipment, the organization will then make the equipment available for appropriate children.

“The goal of the organization is to utilize this equipment to provide greater safety, mobility and independence for children in their development years,” added Peter Kopp. “It is so important for children to have the necessary equipment that allows them to optimize interaction with their peers. It helps them to develop important relationships, social skills and self-confidence.”

To donate to Kids Mobility Network, Inc. or to learn more about the organization, visit the organization’s website at www.kidsmobility.org.
